Inc. Magazine Reveals Annual List of America's Fastest-Growing Private Companies—the Inc. 5000

Perry Construction Management Ranks No. 2297 on the 2021 Inc. 5000

Atlanta, Georgia, August 18, 2021 – *Inc.* magazine this week revealed that Perry Construction Management, LLC (PCM) is No. 2,297 on its annual Inc. 5000 list, the most prestigious ranking of the nation's fastest-growing private companies. PCM joins Microsoft, Under Armour, Patagonia and many of the most successful companies within the American economy as a recipient of this honor.

To be a member of the Inc. 5000 list in any year means a company is a top player in their market. Members in 2021 proved especially resilient and flexible given 2020's unprecedented challenges. Among the 5,000, the average median three-year growth rate was 543 percent. Collectively, these 5,000 companies alone added more than 610,000 jobs over the past three years.

"Without a doubt, 2020 presented enormous challenges but also brought out the very best in the team," said Ron Perry, CEO and founder of Perry Construction Management. "Even as much of the world went into hibernation, clients continued to need help. We suited up, masked up and showed up. It was never about hitting a growth number; it was about making sure we helped customers achieve their goals. Our success was a result of making sure our customers were successful."

Complete results of the Inc. 5000, including company profiles and an interactive database that can be sorted by industry, region, and other criteria, can be found at www.inc.com/inc5000. The top 500 companies are featured in the September issue of *Inc.*, which will be available on newsstands on August 20.

"The 2021 Inc. 5000 list feels like one of the most important rosters of companies ever compiled," says Scott Omelianuk, editor-in-chief of *Inc.* "Building one of the fastest-growing companies in America in any year is a remarkable achievement. Building one in the crisis we've lived through is just plain amazing. This kind of accomplishment comes with hard work, smart pivots, great leadership, and the help of a whole lot of people."
