

FOR IMMEDIATE RELEASE: January 8, 2021

**Perry Construction Management, LLC (PCM) has been approved by the U.S. Small Business Administration (SBA) as a Certified HUBZone Small Business concern.**

The HUBZone program encourages small businesses to invest and provide jobs in historically underutilized business locations. PCM's corporate office at 801 East Main Street, West Frankfort, IL is in a historically underutilized business zone.

Through various SBA socio-economic programs, the Federal Government tries to make sure that small businesses receive a certain percentage of contracts. The HUBZone program has a goal of 3% of all dollars awarded. Per program guidelines, a certified HUBZone small business concern is eligible for special considerations. These considerations include HUBZone sole source awards, HUBZone set-aside awards, the HUBZone Price Evaluation Preference (in full and open competition) and HUBZone reserves.

"We are proud to support West Frankfort with jobs, taxes and business investments," said Ron Perry, President and founder of PCM. "This is where the company began six years ago and continues to provide an excellent location for our head office. It also happens to be my hometown and it is truly important to me that PCM have a presence here to support the local community."
